

# Corona - Warn – App

Help in the fight against Corona

The app is free and its usage is voluntary!

Please download from Playstore/Appstore!

Mobile phones automatically exchange ID-informations with each other via Bluetooth

After a positive Corona test, you will be given a QR code. You may enter it into the Corona app and other people who have been near you in the previous 14 days will be anonymously notified.

You will also be informed if you have had contact with an infected person.

Then you can act quickly and get tested.

**!!! Protect yourself and others !!!**
